

I recently provided a copy of our MOU to the Outback 4wd Club, our Alice Springs associated club. The new president is very keen to upgrade their profile and enter into a MOU with P&W in the Alice Springs region. I wish him well in this and offer any assistance.

The two Northern 4WD clubs combined for the Great Northern Clean Up Day. The whole area of Buleys Rockhole and Florence Falls in Litchfield Park was cleared of rubbish to the appreciation of local ranger staff. Many thanks must go to those who helped out. Mickey Barratt must again be especially thanked for organizing this event and the sausage sizzle that followed.

Now for the future of 4WD recreation in the NT. The available 4WD track network in our close parks is certainly expanding for 4WD club members. I am sure this will eventually be so for other 4 wheel drivers however, as management plans call for more 4WD access in general. We must be vigilant in our negotiations to keep some of our hard won pristine camping sites to ourselves.

We must all work together to enhance the opportunities for the enjoyment of our chosen, & most enjoyable recreation. That is the remote touring & camping provided by use of our four wheel drive vehicles.

Mal. Stewart,
President, 4WD NT
